

## **Fourth Interim Report to IMLS**

October 15, 2004

The fourth interim report to IMLS was an extensive document that supplied in-depth information about the past year's Project Athena activities. It included contributions from project principal investigators, project partners, and project fellows. The content of the fourth report was largely related to assessment and is summarized as follows:

### **Recruitment**

- Each school's new fellows identified
- Updated information provided about continuing fellows
- Fellows' reports of sponsor school visits

### **Education**

- Overview of success of Preparing Future Faculty course offered at FSU
- Statement of Project Athena's contribution to research in the LIS field
- Summary of fellows' participation in Outcomes-Based Evaluation Workshop

### **Assessment**

- Presentation of results of the revised Project Athena survey
- Presentation of logic model constructed by fellows
